

Cindy Aguinaga, RN, CVRN, BSN

For 22 years, I navigated the adrenaline rush of the ER as trauma nurse/ER nurse. Before that, I battled flames as a full-time firefighter and high-rise/below grade rescue team at Argonne National Laboratories and navigated the complexities of healthcare as an EMS Coordinator and House Director at Advent Health Medical Center. After 9/11, I proudly served 8 years (2002-2010) in the US Army Nurse Corps and after a few years was assigned as Aide de Camp to a General while serving in the Army. While each chapter honed my skills in unique ways, my faith and passion for caring for others led me to the International Camporee, which I've been blessed to serve for the last 3 Pathfinder International Camporees.

Volunteering at the Pathfinder International Camporee fuels my passion for Jesus. It's an honor to be serving our Lord by volunteering and sharing the love of Jesus with our future leaders.
